

## Mambo2

### Personal Tracking Device

The Mambo2 is an advanced personal tracker that integrates a quad band GSM/GPRS phone for two way communications and a 20 channel low-power GPS receiver for positioning.

Mambo2 can be used as a mobile phone with the standard features, voice calls, SMS all through a simple menu-guided operation. This small robust device can be carried along in a pocket or fixed in a vehicle. MAMBO2 also supports a series of functions for GPS navigation and tracking via SMS, CSD and GPRS/TCP. The all-rounders true strength lies in the multitude of its configuration options: Rolling GPS display, geo-fencing capability with alarm and an ultra-precise movement detector are just some of the Mambo2's core functions.

### Features:

- Open Two way voice or restricted outgoing call
- Bi directional GPRS messaging
- Full colour display
- Emergency Button
- Tilt alarm
- No movement alarm
- Intelligent GPS tracking (distance calculations)
- High Sensitivity GPS receiver
- Remote scripting update
- IP 65 rated (dependant on requested features)

### Technical Specifications:

Specification	GH100
Size	(T/W/H): 26 x 54 x 86 mm
Weight	108g
Battery	Li-Polymer battery
GSM Module	850/900/1800/1900 MHz
Temperature Range	-20 C to +60 C
Interfaces	Bluetooth* SPP, IEEE 802.15.4*, ANT*
Connectivity	SMS, GPRS
Connection to PC	Yes (USB), Configuration via SMS/GPRS/USB Micro SD card reader* SIM card reader for 1,8/3 V SIM cards

\*Optional available. Note: Specifications may change without notice.
